SUMMARY

Results-driven backend engineer with 9 years of experience building backend systems on PostgreSQL, TypeScript, RabbitMQ.

EXPERIENCE

Staff Backend Engineer - Crestline Analytics (2025-2026)

- Owned the Go event pipeline processing 57M events/day.
- Designed internal Node.js standards used by 13+ downstream services.
- Designed a TypeScript-backed data layer that cut p99 query latency by 52%.

Senior Backend Engineer - Grayline Analytics (2021-2025)

- Led migration of core services at Grayline Analytics onto RabbitMQ, improving uptime during peak load.

Backend Engineer - Windmere Networks (2017-2021)

- Built and maintained REST APIs in Node.js serving 591K requests/day.

EDUCATION

M.S. Electrical Engineering, NC State University, 2017

B.S. Electrical Engineering, Boston University, 2014

SKILLS

- PostgreSQL
- TypeScript
- RabbitMQ
- Go
- GraphQL
- Redis
- Node.js
