SUMMARY

Results-driven backend engineer with 4 years of experience building backend systems on Microservices, Kubernetes, Distributed systems.

EXPERIENCE

Backend Engineer - Sable Platform (2023-2026)

- Designed internal Distributed systems standards used by 31+ downstream services.
- Introduced Terraform-managed infrastructure, cutting provisioning time by 53%.

Software Engineer I - Redbank Networks (2022-2023)

- Applied distributed-systems patterns to scale the platform to 190K concurrent users.
- Led migration of core services at Redbank Networks onto Distributed systems, improving uptime during peak load.
- Owned the Java event pipeline processing 71M events/day.

EDUCATION

B.S. Computer Engineering, Penn State University, 2021

SKILLS

- Microservices
- Kubernetes
- Distributed systems
- PostgreSQL
- Java
- AWS
