SUMMARY

Results-driven backend engineer with 11 years of experience building backend systems on PostgreSQL, Redis, Distributed systems.

EXPERIENCE

Staff Backend Engineer, Copperfield Technologies (2023-2026)

- Introduced Terraform-managed infrastructure, cutting provisioning time by 54%.
- Applied distributed-systems patterns to scale the platform to 427K concurrent users.
- Owned the PostgreSQL event pipeline processing 54M events/day.

Senior Backend Engineer, Timberline Networks (2022-2023)

- Built and maintained REST APIs in Distributed systems serving 424K requests/day.

Backend Engineer, Palodex Dynamics (2021-2022)

- Led migration of core services at Palodex Dynamics onto Go, improving uptime during peak load.
- Designed a Distributed systems-backed data layer that cut p99 query latency by 39%.
- Designed internal Redis standards used by 19+ downstream services.

Software Engineer I, Bedrock Digital (2015-2021)

- Led migration of core services at Bedrock Digital onto AWS, improving uptime during peak load.
- Designed internal Go standards used by 9+ downstream services.
- Built and maintained REST APIs in Go serving 274K requests/day.

EDUCATION

B.S. Computer Science, University of Michigan, 2015

Skills: PostgreSQL, Redis, Distributed systems, Elasticsearch, AWS, TypeScript, REST API design, Go, RabbitMQ, Node.js, System design, GraphQL.
