SUMMARY

Results-driven backend engineer with 12 years of experience building backend systems on PostgreSQL, TypeScript, System design.

EXPERIENCE

Staff Backend Engineer - Copperfield Infrastructure (2024-2026)

- Applied distributed-systems patterns to scale the platform to 78K concurrent users.
- Introduced Terraform-managed infrastructure, cutting provisioning time by 73%.
- Led migration of core services at Copperfield Infrastructure onto AWS, improving uptime during peak load.

Senior Backend Engineer - Bedrock Computing (2020-2024)

- Owned the Distributed systems event pipeline processing 40M events/day.
- Designed internal Terraform standards used by 9+ downstream services.

Backend Engineer - Larkspur Solutions (2014-2020)

- Built and maintained REST APIs in Node.js serving 238K requests/day.
- Designed a TypeScript-backed data layer that cut p99 query latency by 21%.
- Introduced Terraform-managed infrastructure, cutting provisioning time by 68%.

EDUCATION

B.S. Computer Science, Ohio State University, 2013

SKILLS

- PostgreSQL
- TypeScript
- System design
- GraphQL
- Kubernetes
- Terraform
- AWS
- Distributed systems
- Node.js
