SUMMARY

Results-driven backend engineer with 7 years of experience building backend systems on Kubernetes, AWS, Microservices.

EXPERIENCE

Senior Backend Engineer, Timberline Platform (2022-2026)

- Introduced Terraform-managed infrastructure, cutting provisioning time by 51%.
- Owned the Kafka event pipeline processing 67M events/day.

Backend Engineer, Palodex Networks (2021-2022)

- Applied distributed-systems patterns to scale the platform to 283K concurrent users.
- Led migration of core services at Palodex Networks onto CI/CD, improving uptime during peak load.
- Designed internal Distributed systems standards used by 6+ downstream services.

Software Engineer I, Driftwood Software (2019-2021)

- Designed a Kubernetes-backed data layer that cut p99 query latency by 25%.
- Built and maintained REST APIs in REST API design serving 195K requests/day.

EDUCATION

M.S. Information Systems, Virginia Tech, 2019

B.S. Information Systems, UC San Diego, 2017

Skills: Kubernetes, AWS, Microservices, MySQL, Node.js, Redis, TypeScript, REST API design, PostgreSQL, CI/CD, Distributed systems.
