SUMMARY

Results-driven backend engineer with 9 years of experience building backend systems on PostgreSQL, REST API design, System design.

EXPERIENCE

Staff Backend Engineer, Driftwood Labs (2025-2026)

- Applied distributed-systems patterns to scale the platform to 193K concurrent users.
- Designed internal Kubernetes standards used by 15+ downstream services.
- Introduced Terraform-managed infrastructure, cutting provisioning time by 51%.

Senior Backend Engineer, Hollowbrook Technologies (2023-2025)

- Designed a TypeScript-backed data layer that cut p99 query latency by 24%.
- Built and maintained REST APIs in Python serving 791K requests/day.
- Owned the System design event pipeline processing 7M events/day.

Backend Engineer, Lattice Software (2017-2023)

- Led migration of core services at Lattice Software onto System design, improving uptime during peak load.
- Designed a Kubernetes-backed data layer that cut p99 query latency by 29%.
- Owned the Python event pipeline processing 71M events/day.

EDUCATION

M.S. Information Systems, Columbia University, 2016

B.S. Information Systems, Columbia University, 2013

Skills: PostgreSQL, REST API design, System design, Kubernetes, Python, TypeScript, Node.js.
