SUMMARY

Results-driven backend engineer with 6 years of experience building backend systems on TypeScript, REST API design, Kafka.

EXPERIENCE

Senior Backend Engineer, Foundry Dynamics (2022-2026)

- Designed a GraphQL-backed data layer that cut p99 query latency by 65%.

Backend Engineer, Amber Infrastructure (2021-2022)

- Built and maintained REST APIs in MySQL serving 244K requests/day.
- Designed internal MySQL standards used by 34+ downstream services.

Software Engineer I, Hollowbrook Dynamics (2020-2021)

- Applied distributed-systems patterns to scale the platform to 224K concurrent users.

EDUCATION

B.S. Electrical Engineering, Portland State University, 2020

Skills: TypeScript, REST API design, Kafka, GraphQL, Node.js, MySQL, PostgreSQL.
